

28
Years of *Reliability*

Audio Power Amps **ODM & OEM** Specialist
In-House **Hardware & Software** Engineers
Design **Concept to Finish** Manufacturing
Over **100 Millions** Products Delivered

Founded in **1996** by **six engineers** who were the original ODM design team members of the **PROTON TV & Audio** and the industry legendary **NAD 3020 Amplifier**.

Our strengths in

- People
- Experience
- Passion

We thrive with Innovation and Challenges

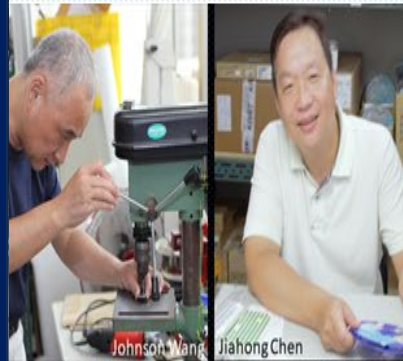

SE Director / Dennis Lu

- 30+ years of software development experience and focused in the holistic and embedded systems
- Developed the first multi-channel & 3D audio sound card in the world in 2003
- Manager of a software team to develop Microsoft MCE remote product that have ODM to HP, Foxconn, Acer, BenQ, Fujitsu-Siemens and other manufacturers in 2008
- Graduate of Feng Chia University, Department of Information Engineering in 1994.

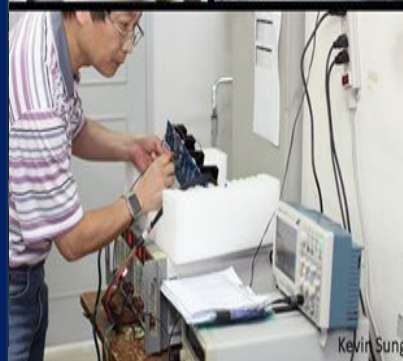

Production Chief / K.T. Chiou

- 30+ years in audio video design, engineering and production
- Specialize in QA, QC, production process and problem-solving
- Holds an Electronic Engineering Bachelor and has been dedicated work for Proton, Gigatek and now Keiga.

ME Chief / Johnson Wang

- 30+ years in Mechanical Engineering and Design
- Highly awarded: • 2013 Tear-innovation, honored "G-mark" award for his Hybrid hardshell case EDGE • 2012 Tear-innovation, honored "G-mark" award for his Powerbank SOLO • 2008 Think-product award for his Waterproof HID Metallight • 1997 Proton honored his multimedia monitor with built-in subwoofer design
- Holds a Mechanical Engineering Bachelor degree

Purchasing Manager / Jiahong Chen

- The magician and human computer for all our engineers and factories. He can find and purchase almost everything that our engineers' needs with up-to-date prices and availability.
- Studied Electronic Engineering from a technology vocational school

QC/QA Chief / Kevin Sung

- 30+ years of electrical and production engineer
- devotion to electronic design, QC/QA and troubleshooting has earned him the highest respects from both design and production engineers everywhere

EE DIRECTOR / TEDDY CHIANG

- 30+ years in audio amplifier engineering at Keiga and Vistar Audio
- Specializes in Class-D Amplifier Carrier Cancellation, Thermal-foldback Amplifier Power Control and DSP controlled Thermal Managements
- Holds a Bachelor Degree of Electrical Engineering

EE Director / Tom Chang

- 30+ years in audio amplifier design at Keiga, AIM, and Formosa21
- Specializes in PoE, Amazon Echo Dot in-wall and on-ceiling Amplifiers, wireless audio transceiver and Bluetooth with extended patents and innovations
- Holds a Bachelor Degree of Electronic Engineering

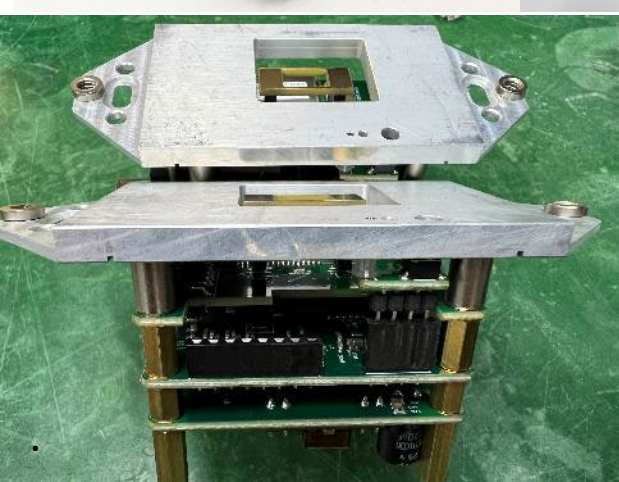

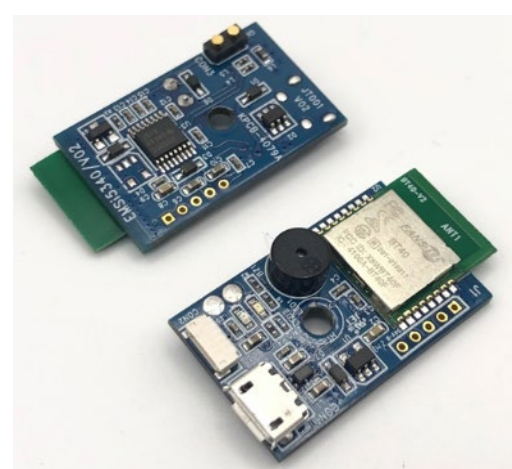

GENERAL MANAGER / FRANK TZENG

- 30+ years management and executive in Electronic manufacturing, Consumer electronics, Computers and Toys
- Specializes in growth strategy implementation, performance synergy, product branding, and US-Asian operations
- Holds MS degree in Electrical Engineering

PD DIRECTOR / Y.F. TSAI

- 30+ years senior PM at Keiga, AIM, Formosa21, and Creative Labs
- Specializes in IoT, Voice Control, Internet Streaming, audio application and IP Amplifiers
- Participated with the USB audio design and patented applications.
- Hosted marketing events with Yahoo!, Electrical Arts and UbiSoft.
- Holds two Bachelor degrees, Electrical Engineering and English Literature

None Stopping Breakthroughs

- 2024 85W@4Ω Burst Power 2-ch Dante PoE++ Amp
- 2023 Bluetooth Auracast Tx/Rx & PoE 2/4-ch w/AES I/O
- 2022 2000 W Multi-room with DSP Power Amplifiers
- 2021 IoT Gateway based on Nordic nRF5340
- 2020 2-ch and 4-ch PoE++ Dante DSP Amplifiers
- 2019 PoE++ Dante built-in Amp for Ceiling Speakers
- 2018 In-Wall 60 W Amp with built-in Amazon Echo Dot
- 2017 4-ch Power Amp for voice-activated Amazon Echo Dot
- 2016 Marine and RV 1, 2, 4, 5 and 8-ch Power Amps

*All Products made for various ODM customers under customers' licenses

Our Main Products

- Dante PoE Amps
- Wireless Tx/Rx
- Power Amps
- Application Software
