

OEM/ODM ONLY

Keiga PoE Dante® Amps series:

- 4ch / 2ch 85W: ED-014 Puncher IV / ED-013 Puncher II
- 4ch / 2ch 71W: ED-008, ED-010 / ED-005, ED-009, ED-71, TD-002 (with triple inputs: Dante, Optical and Analog)
- 2ch 22W: ED-004, ED-22 • AES Dante Bridge: ED-012
- 90W Injector: EI-90 • Splitter: ESDC

A single RJ45 port solution for all audio, DSP, and power controls, delivering discreet power and streamlined integration. Optional bare-bones boards provide customization to seamlessly fit within your speaker enclosure while preserving a clean aesthetic.

Exclusive Software, Customizable Features

- Adjust volume
- Save and recall your settings
- Fine-tune sound with Parametric EQ
- Auto-detect devices
- Customize filter response
- Locate your device with "Find Me"
- Manage power options
- Personalize the look and feel
- And much more!

ED-013 Puncher II PoE Dante® Amplifier

Burst Power*

85W @4Ω bridged or 42W x 2ch @8Ω
 * CEA-2006, THD+N=1% with external 56V DC input

Constant Power

71W @4Ω bridged or 35W x 2ch @8Ω

- PoE / PoE+ / PoE++ • IEEE 802.3af/at/bt
- AES67 Compliance • Dante Ultimo™
- Audio DSP • 5 LED status indicators
- PoE status, CH1 Peak, CH1 Signal, CH2 Peak, CH2 Signal

New!

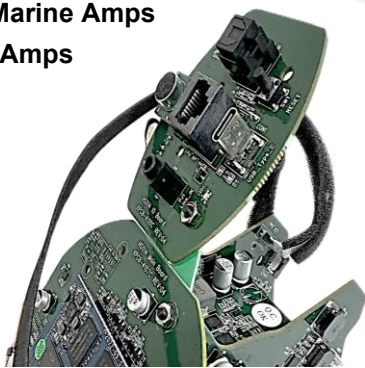

Also available **ED-014 Puncher IV** with 4 channel outputs

Year	Milestone
2016	Signed Licensing Agreement with Audinate and purchased Ultimo chipsets to start inhouse development
2017	First EVD board developed
2018	Q1, announced D6SW , Dante Audio Selector without Dante Controller Q3, announced TZ board interfacing with IP control Amplifiers
2019	Q1, announced ED16d Q2, announced ED004 with Audio DSP and KAP™ Config Tools Q3 Release PoE Speakers DG002 and SD001 Q4, Started developing BROADWAY 8x8 chipset
2020	Q1, announced ED005 In-wall 71W PoE Audio Dante Amplifier with Audio DSP and Dante Discovery Tools Q2, Release BROADWAY 8x8 module board with customer licensee
2021	Q1, announced ED008 15Wx4 Dante PoE amplifier with Ultimo4x4 and dual Audio DSP Q4, announced ED009 20W Audio Amplifier with PSE for PoE Daisy Chain and Line/Mic in as Dante Audio Source Q1, announced LD006 Dante Audio with Libre Wireless Streaming Audio as Audio Source for Dante system Q2, announce ED010 , 15Wx4 Dante PoE amplifier boards
2022	Q3, announce ED011 , RJ45 convertor with LEDs, accessory part for speaker vendor. Q4, Support customized projects and release TD002, XC007 ... Release ED012 Dante AES I/O device. Release EI90 PoE++ injector. Introduce more projects with speaker suppliers.
2023	Transfer to UDP protocol in customized projects. Announce ED013 with Burst Power .
2024	Live demo ED013 in ISE for 100W output under PoE++ mode by CEA 2006. Announce ED014 4ch model with Burst Power .

Genuine Power Amp Series

Diverse Audio Amplifier Solutions From 20 to 2000 Watts for:

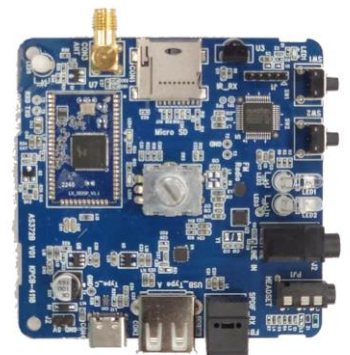

- Multi-channel Rail-Mounted Amps
- High Voltage Rail-Mounted Amps
- Automobile, RV & Marine Amps
- Multi-Channel Mini Amps
- Modularized Amps
- Subwoofer Amps
- Plate Amps
- In-Wall Amps
- PCBA Amps
- Custom Design Amps and more...

We can tailor all electrical, mechanical, software, and aesthetic aspects to your specific requirements

New! Bluetooth 5.3

- Mini size: 72.5mm x 72.5mm
- Bluetooth 5.2 Audio Receiver
- BLE Controller built-in
- MP3 Player embedded
- Extra Inputs: Optical & Line
- Headphone Output
- FM Radio (Optional)
- Pairing BT 5.3 Tx in development

*This module is different from our existing Auracast™ Bridge EM003
